# TOUGH WORK MADE EASIER

Professional Cordless Solutions

It's in your hands. Bosch Professional.

PROFESSIONAL  
**18V**  
SYSTEM

2 — 18V SYSTEM

# EXTREME POWER MADE EASIER

The Professional 18V System will work harder for you than your boss. Fully compatible since 2008, our 18V cordless system is a complete range of tools that deliver equivalent corded power up to an astonishing 2,000W – all with just one 18V battery. Tough work has never been easier.

PROFESSIONAL  
**18V**  
SYSTEM

# 5 WAYS WE MAKE TOUGH WORK EASIER

4 — 18V SYSTEM

## 1 ONE BATTERY FITS ALL

Innovation often comes at the cost of compatibility, but not with Bosch Professional. Compatible since 2008, all of our Professional 18V System batteries can be used with all new and existing tools in the same voltage class.

## 2 CORDED POWER WITHOUT THE CORD

Our high-performance BITURBO Brushless tools give you corded power without the cord. Unlock up to 2,000W of power\* with just one ProCORE18V battery – while staying fully compatible with the Professional 18V System.

\* For maximum power of BITURBO tools, use ProCORE18V 5.5Ah, 8.0Ah, or 12.0Ah batteries.

# 3 3-YEAR GUARANTEE

FOR TOOLS + BATTERIES

Our tools, batteries and chargers are guaranteed to withstand tough work. Don't believe us? We'll cover you for it. You can extend your guarantee to 3 years – free of charge. Simply register your tools and batteries within 4 weeks of purchase via our digital service centre PRO360.

# 4 EASY MOBILITY

Some call it storage. We call it mobility. Discover the L-BOXX: Easy to carry, easy to stack, easy to stay on the move. Our storage and transportation cases are compatible with Sortimo vehicle racks and can be adapted to fit your tools, batteries, accessories, and chargers.

# 5 UNIVERSAL BATTERY PARTNERS

We opened up the Professional 18V System so that you can even use our batteries with other professional brands. With 60 million batteries already sold, we're paving the future of the universal battery – together. More compatibility, more freedom.

**18V**  
SYSTEM

6 — 18V SYSTEM – BITURBO

# BITURBO: CORDED POWER WITHOUT THE CORD

**Up to 2,000W of equivalent corded power with just one 18V battery.  
Unbelievable? Nope. Just BITURBO Brushless.**

A few years ago, you couldn't take on heavy-duty jobs with a cordless tool. Today, you have BITURBO Brushless. Discover our heavy-duty 18V series that delivers corded performance – with just one ProCORE18V battery. Extreme power has never felt so light in your hands.

Watch **BITURBO** in action:  
[bosch-professional.com](https://www.bosch-professional.com)

# THE POWER OF 18 VOLTS

Why offer corded power with “just” 18 volts? Because we can. Because this way you get outstanding power-to-weight ratio – and full compatibility within an 18V system you already have. No need to switch voltage classes. With the power of 18 volts, we make your tools lighter, safer, more flexible – and tough work easier.

**BITURBO**  
BRUSHLESS

## BITURBO BRUSHLESS TOOLS

- High-performance brushless motors: Using the world’s strongest commercially available magnets, the motor exploits the full potential of ProCORE18V batteries for up to 2,000W of corded power
- Optimal airflow enables excellent cooling so tools can work uninterrupted for long periods of time
- Maximum comfort and improved user protection with our top features, e.g.: Soft Start, KickBack Control, Vibration Control, Drop Control, Intelligent Brake System, Connectivity

For maximum power of BITURBO tools, use ProCORE18V 5.5Ah, 8.0Ah or 12.0Ah batteries.

Pro**CORE**18V

## ProCORE18V BATTERIES

- Latest cell technology and intelligent battery management deliver 87% more power than conventional batteries\*
- COOLPACK 2.0 technology provides superior heat dissipation for 135% longer lifetime than standard batteries
- Recommended for BITURBO tools: 5.5Ah, 8.0Ah, 12.0Ah

Also compatible with our standard 18V Bosch Professional tools.

\* Bosch ProCORE18V 8.0Ah vs. Bosch GBA 18V 6.0Ah (continuous current; ProCORE18V 8.0Ah: 90A vs. GBA 18V 6.0Ah: 48A)

# UNBELIEVABLE? NOPE, JUST BITURBO.

## GWX 18V-15 SC ANGLE GRINDER

- **50% stronger** than all our previous cordless angle grinders
- **255 cuts** with one battery charge in 12mm-thick rebar
- Outperforms **corded equivalent** due to extremely high grinding speed <sup>1</sup>
- **High user protection:** Intelligent “X-Brake”, KickBack Control, Drop Control, Restart Protection

## GBH 18V-45 C ROTARY HAMMER SDS MAX

- Corded performance with **12.5 J impact energy** <sup>2</sup>
- **Lightest tool** in its class <sup>3</sup>
- **Best drilling distance in its class: 4.27 m** with just one charge <sup>4</sup>
- **Outstanding tool control:** Soft Start, KickBack Control reduces hazards from sudden tool reactions

## GBH 18V-34 CF ROTARY HAMMER SDS PLUS

- Up to **5.8 J impact energy**
- **Most powerful** cordless SDS plus hammer on the market <sup>5</sup>
- Unparalleled drilling speed at diameter **25 mm** <sup>6</sup>
- **Outstanding tool control:** Soft Start, KickBack Control, and three different working modes

<sup>1</sup> Corded GWS 13-125 CIE vs. cordless GWX 18-15 SC incl. ProCORE18V 8.0Ah. <sup>2</sup> Comparable performance to corded GBH 8-45 DV <sup>3</sup> As of February 2020. Weight of GBH 18V-45 C incl. ProCORE18V 12.0 Ah according to EPTA Procedure 01:2014 = 9.3 kg. <sup>4</sup> As of February 2020. Resulting out of 150mm-deep holes with 25mm Drill Bit in Concrete C30/37 using ProCORE18V 12.0Ah. Tested by DEKRA Testing and Certification GmbH (Test Report 3414140.04) on behalf of Bosch Power Tools GmbH <sup>5</sup> As of February 2020. 5,8 Joule Impact Energy according to EPTA Procedure 05:2016. <sup>6</sup> As of February 2020. At 25mm drilling in concrete C30/37 using

BITURBO stands for extreme power you can control. But we'll let the facts speak for themselves. Discover corded power without the cord – and features that have got your back. Find all our BITURBO tools on the following pages.

**GKS 18V-68 GC  
HAND-HELD  
CIRCULAR SAW**

- Up to **1,800W** of equivalent corded power
- **Faster and lighter** than its corded counterpart <sup>7</sup>
- **Only needs one battery:** Performs just as well as competitor tools with two batteries or higher voltage classes <sup>8</sup>
- **Outstanding ergonomics:** New auxiliary handle ensures perfect control in all cutting positions

**GSR/GSB 18V-150 C  
DRILL DRIVER/  
COMBI DRIVER**

- Max. torque of **150 Nm**
- **World's strongest** 18V drill driver <sup>9</sup>
- **Extreme power with full control:** Electronic Angle Detection, KickBack Control, Connectivity

**GCM 18V-305 GDC  
MITRE  
SAW**

- Up to **2,000W** of equivalent corded power
- **Best-in-class cutting efficiency:** Up to 70% more cuts per battery charge <sup>10</sup>
- **Outstanding cutting depth** with max. 120mm depth, max. 400mm width
- **High user protection:** Tool-less saw blade change, upfront bevel control, motor brake, patented glide arm design, Click & Clean System for dust extraction

ProCORE18V 8.0Ah. Tested by DEKRA Testing and Certification GmbH (Test Report 3414140.05) on behalf of Bosch Power Tools GmbH. <sup>7</sup> Corded GKS 65 GCE vs. cordless GKS 18V-68 GC incl. ProCORE18V 8.0Ah. <sup>8</sup> As of February 2020. Tested by DEKRA Testing and Certification GmbH (Test Report 341653200) on behalf of Bosch Power Tools GmbH. <sup>9</sup> As of February 2021. Comparison done by DEKRA Testing and Certification GmbH (Test Report 342158900) on behalf of Robert Bosch Power Tools GmbH. Soft torque according to ISO5393:2017. <sup>10</sup> Comparison done by Dekra Testing and Certification GmbH on behalf of Robert Bosch Power Tools GmbH as of 07.2020. Report number: 3417050.01.

PROFESSIONAL  
**12V**  
SYSTEM

18 — 12V SYSTEM

# WHEN SIZE DOES MATTER.

## 5 reasons to choose the Professional 12V System.

There's more to a tool than its torque. Smaller, lighter, still powerful enough to put holes through hard metals - the Professional 12V System enables you to do tough work in tight spots.

Discover more:  
[bosch-professional.com](https://www.bosch-professional.com)

# 1 LIGHTWEIGHT

No one gains when you strain. Our 12V tools weigh as little as 0.5 kg bare. If you need to work in tight spots, crawl into spaces, or work overhead with your arms stretched out, then 12V has the advantage – easily.

# 2 FULLY COMPATIBLE

One battery fits all since 2005: All our 12V batteries are compatible with new and existing Bosch Professional 12V and 10.8V tools.

# 3 POWERFUL

Size without compromise. Our 12V drill driver GSR 12V-35 FC delivers up to 35 Nm and 1,750 rpm – while giving you all the power and precision you need for smart, detailed work.

# 4 BIG MEASURES

From wall scanners to laser measures, our 12V system offers a diverse range of measuring tools that are known for their robustness, precision, and easy documentation.

# 5 MAXIMUM PROTECTION

All our tools are compatible with our L-BOXX storage cases for maximum protection and easy transportation. Also: our 3-year extended guarantee applies to all your 12V tools – and batteries! – at no extra cost.

PROFESSIONAL

# WHY PROS LOVE THE L-BOXX

Easy to carry, easy to stack, easy to stay on the move.  
Some call it storage. We call it mobility.  
Discover the best sellers of our Bosch Mobility System.

## IT KNOWS THE DRILL

The new L-Case knows the drill. Enjoy easy access to your drill bit collection with the L-Case, thanks to its transparent cover and the ingenious Pick and Click system. Works as a carrying case on its own and stacks perfectly with all L-BOXX units.

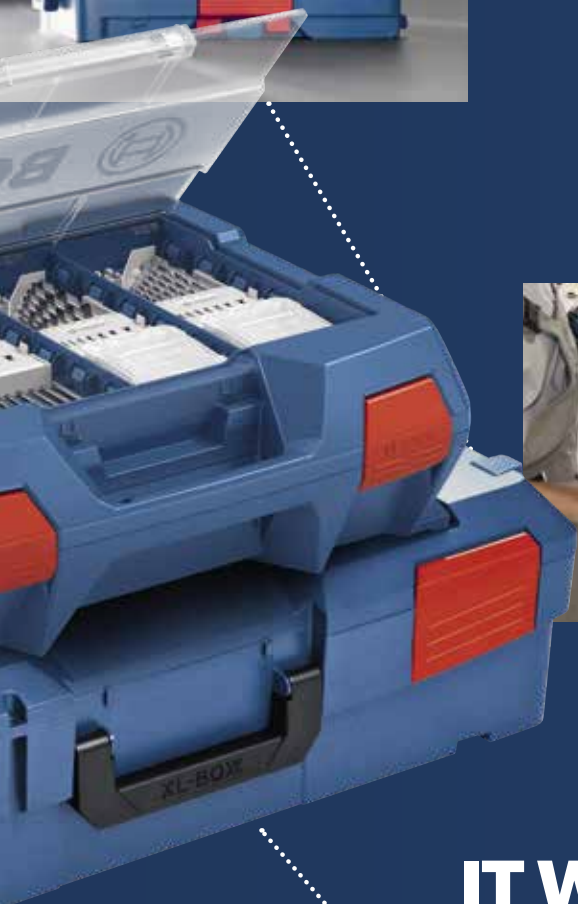

## IT STACKS

How high can you go? Our pros tell us they have L-BOXX stacks as tall as themselves. Instead of storing all your gear in huge boxes, break down the load into separate units – and stack them up. Hate unpacking? Opt for drawers and use your stack as a mobile work station. Need to stay on the move? Put your stack on wheels with a roller or aluminium caddy.

## IT'S TOUGH

Shock and splash-resistant, the L-BOXX can withstand up to 100 kg of top-load and up to 50 kg of carrying weight, ensuring safe use and transport in the toughest environments. The splash-resistant exterior and seals keep out rain and moisture so that your accessories have little risk of rust.

## IT SORTS THINGS OUT

No loose screws. You can customise the inside of each L-BOXX just the way you like. Organise your screws, nuts, bolts, and other smaller items with a wide range of colour-coded boxes and drawers. Cushion your tools using custom tool inlays in plastic or foam. Got an irregular shape? Create a custom cushion by popping out pre-cut blocks from our adaptable foam insert. It's fun.

## IT WORKS WITH SORTIMO

Fan of the van? Organise your worklife on four wheels. Our L-BOXX stacks and units are fully compatible with Sortimo – the world's leading in-vehicle shelving, racking, and mobile storage system. Custom components make it possible for you to house all your gear and transport them safely between jobs.

Available individually or as kits with tools included.

# EXPERT

## ACCESSORY RANGE

# THE BEST YOUR TOOL CAN GET.

Our new high-performance accessories series for all trades and materials. Harder, tougher, faster – EXPERT accessories do the hard work for you and last up to 100x longer than our standard accessories.

\*Bosch EXPERT products vs. Bosch standard products.

# WHY EXPERT?

You can have the best power drill in the world, but it won't make hard work easier unless you equip yourself with the best drill bits. Boost your efficiency with EXPERT accessories by working easier, faster, longer – and with greater precision.

**UP TO 100x\***

**LONG LIFE**

**UP TO 5x\***

**SPEED**

**UP TO 5x\***

**PRECISION**

**UP TO 30%\***

**PROTECTIVE**

**UP TO 4x\***

**NO DUST**

## DISCOVER THE NEW EXPERT RANGE FOR EFFICIENT WORKING

The EXPERT range features the best and most innovative power tool accessories for all trades and challenges. Each one offers a proven performance advantage to the demanding professional. EXPERT means working faster, cleaner, with greater precision, and making light of the toughest materials. Can you afford not to use EXPERT?

Explore more here:

# YOUR PRO STORIES

Everyone's got a story, but yours are the best. Here's how our cordless solutions make the toughest jobs in the field easier:

“DUST GETS EVERYWHERE AND THE TOOLS KEEP WORKING.”

Kester Wilkinson –  
Event Manager, Extreme E

## SAND & STORM

From blazing deserts to icy tundras, our cordless tools play a vital role in facilitating the world's first and only electric SUV race. Extreme E is a daring new motor sports series that races electric SUVs in the world's most aggressive environments. Our cordless tools toughed it out in the Saudi Arabian desert at extreme temperatures and travelled by sea between race locations. To the crew's astonishment, the batteries held their charge in aggressive marine environments for over a month – so the crew could hit the ground running upon arrival.

Discover more PRO Stories from around the world:  
[bosch-professional.com](https://www.bosch-professional.com)

“CHANGING ANGLE GRINDER DISCS ONLY TAKES SECONDS – AND YOU DON’T EVEN NEED A TOOL.”

Manfred May – Construction Manager of the Max Bögl Group

## HIGH SUSPENSE

When you’re building the third tallest bridge in Germany, 85m above the ground, the last thing you need is to drop your tools. The builders of the Filstalbrücke – a 500m-long bridge that supports the high-speed ICE railway between Stuttgart and Ulm – used our 18V cordless angle grinders to work quickly and easily. The X-LOCK system allowed the team to switch angle grinder discs with just one click, without fumbling with a key and clamping nut. “I don’t even need to take off my gloves”, says May, who has to work at sub-zero temperatures.

“MAKES ALL OUR WORK ON THE BIKES MUCH FASTER AND EASIER.”

Marco Ventura – Chief Mechanic, Lenovo

## ENGINEERS OF SPEED

A false move could cost a victory – or even a life. There’s not a split-second to lose in the pit stops of the MotoGP. For 15 years, Ducati Lenovo mechanics have depended on our power tools to secure victory after victory. Winning is not a one-off trick: The crew requires tools that can pull off the same tasks reliably and repeatedly – from training and trial-runs to races. Cordless tools such as the high-performance BITURBO impact wrench are game-changers, shaving split-seconds off the clock and accounting for incredible speed in the pit – and on the track.
