Digital Tape Measure

GLM 20 Professional

Distance measurement – easy, compact, for professionals

3,600 KES*

Advantages

- Compact one button laser measure, measuring up to 20m.
- One button for everything – intuitive and easy measuring.
- Measure and Capture – Holds one measurement while taking another.
- Real Time Measurement Mode – Measurement automatically adjusts closer to or farther from target, just like a tape measure.

Technical data	0.13 kg
Order number: 0 601 072 ...	
Units of measurement: m/cm. ft/inch	
Measurement range: 0.15 – 20.00	
Length: 100 mm	
Width: 36 mm	
Height: 23 mm	
Measurement time, typical: < 0.5 s	
Measurement time, max.: 4 s	
Laser diode: 635 nm. < 1 mW	
Laser class: 2	
Measurement accuracy, typical: +/- 3.0 mm	
Power supply: 2 x 1.5 V LR03 (AAA)	
Automatic deactivation: 5 min.	
Scope of supply	...EGO
2 x 1.5 V LR03 (AAA) batteries	✓
Manufacturer's certificate	✓

Target Groups / Applications:

- 01 Professional non users of laser technology who still use and trust traditional methods.
- 02 Larger companies that don't want to invest in expensive high spec rangefinders.
- 03 Professionals who need to conduct basic measurements and need a compact laser measure.

Laser Measure

GLM 40 Professional

All relevant functions in a compact design

13,300 KES*

Advantages

- Laser measure that measures up to 40m with basic functions such as add and subtract, area and volume
- Maximum readability due to illuminated, three line display
- Memory function enables easy access to the last ten measurements

Technical data 0.09 kg

Functions: Length, Area, Volume, Add/Subtract values, Continuous measurements, Indirect Height, Memory

Order number: 0 601 072 ...

Units of measurement: m/cm. ft/inch

Measurement range: 0.15 – 40.00 m

Length: 105 mm

Width: 41 mm

Height: 24 mm

Measurement time, typical: < 0.5 s

Measurement time, max.: 4 s

Laser diode: 635 nm. < 1 mW

Laser class: 2

Measurement accuracy, typical: ± 1.5 mm

Power supply: 2 x 1.5 V LR03 (AAA)

Automatic deactivation: 5 min.

Scope of supply ...900

2 x 1.5 V LR03 (AAA) batteries	✓
Manufacturer's certificate	✓

Target Groups / Applications:

- 01 Tradesmen who mainly work indoors and conduct basic area and length measurements.
- 02 Electricians, plumbers, painters who need to estimate material for HVAC systems, electrical installations, wiring, calculating paint and plaster for job.

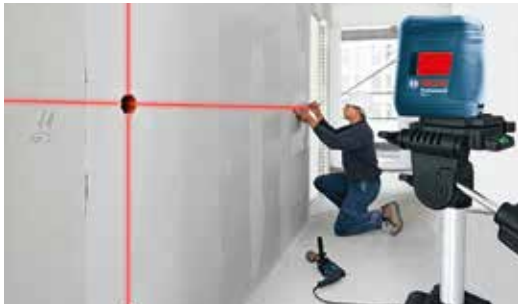

Cross - Line Laser

GLL 2 Professional

Compact and versatile for all short - distance levelling applications

7,800 KES*

Advantages

- Self-Leveling Cross-Line Laser is a compact leveling and alignment solution.
- Smart Pendulum System, which self levels and indicates out of level position.
- Switch slider to lock for secure transport.
- Easy to use one button operation allows the user to choose among cross-line, horizontal or vertical modes.
- Includes a flexible mounting device that can clamp to practically any interior surface for maximum versatility.

Technical data	0.28 kg
Order number: 0 601 063 ...	
Power supply: 2 x 1.5 V LR6 (AA)	
Working range up to: 10 m	
Accuracy: ± 0.5 mm/m	
Self-levelling range: ± 4°	
Laser class 2	
Scope of supply	... A01
2 x 1.5 V (AA) batteries	✓
Protective bag	✓
Universal mount MM 2	✓

Target Groups / Applications:

- 01 Horizontal levelling – suspending drop ceiling, building floor, paneling, mount shelves or cupboards, install windows.
- 02 Vertical levelling – building dry wall frame work, fixing drain pipes, hanging furniture, mounting doors/windows.

Line Laser

GLL 3-15 X Professional

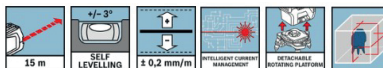

For easy decorative interior fitting applications

20,000 KES*

Advantages

- Projection: 3 lines + 1 plumb point
- Maximum precision thanks to the Bosch Pendulum Precision System
- Projection of a vertical and a horizontal line
- Detachable, 360° rotating platform with bubble vial and fine adjustment

Technical data 0.72 kg

Order number: 0 601 063 ...

Self-levelling range*: $\pm 3^\circ$

Leveling time: 4 s

Laser diode: 635 - 650 nm

Laser class: 2

Operating time (max.): 24 h

Power supply: 4 x 1.5 V LR6 (AA)

Projection: 3 lines + 1 plumb point

Scope of supply ...M00

4 x 1.5 V LR6 (AA) batteries ✓

Manufacturer's certificate ✓

Protective bag ✓

Tripod Adapter ✓

Target Groups / Applications:

- 01 Easy positioning on given reference marks for interior finishing tasks and transfer applications.
- 02 Horizon leveling - suspending drop ceiling, building floor, paneling, mount shelves or cupboards, install windows.
- 03 Vertical leveling - building dry wall frame work, fixing drain pipes, hanging furniture, mounting doors / windows.

Optical Level

GOL 32 D Professional (Complete Set)

Robust and reliable - ideal for outdoor use

Advantages

- 32 x magnification, 120m working range.
- Ideal for outdoor use due to a robust housing with dust and splash protection (IP54).
- Fast aperture for excellent staff reading
- Compensator lock for safe transport.

Technical data	1.5 kg
Order number: 0 601 068 ...	
Length: 215 mm	
Width: 135 mm	
Height: 145 mm	
Accuracy: 1 mm at 30 m	
Dust and splash protection: IP 54	
Weight, approx.: 1.5 kg	
Tripod thread: 5/8"	
Unit of measure: 360 degrees	
Magnification: 32 x	
Scope of supply	... 502
Adjusting pin	✓
Hex key	✓
BT 160 Professional tripod (0 601 091 200)	✓
GR 500 levelling staff (0 601 094 300)	✓
Lens cover	✓
Plumb bob	✓

Target Groups / Applications:

- Users who require 120m working range and 32 x optical zoom.
- Concrete form builders, excavation contractors, surveyors, road construction companies, general contractors, home builders, drainage contractors.
- Excavation contractors use an auto level and leveling rod to determine cut and fill rates to make sure a job site is level.
- Contractors who specialize in foundations use auto levels to make sure the forms are set level.
- General contractors will use an auto level to check the contractors work.
- Contractors can use an auto level to determine how much higher a building is in relation to the street, gutters and drainage ditches.

Detector

GMS 120 Professional

The preferred multi-detector in its class

9,990 KES*

Advantages

- Automatic calibration avoids application errors for more reliable and confident work .
- Locate metal and live wire in various wall types as well as wooden substructures in drywall.
- Detects objects in walls before drilling for increased safety, ideal for renovation work.

Technical data 0.27 kg

Order number: 0 601 081 ...

Length: 200 mm

Width: 85 mm

Height: 32 mm

Detectable materials: **Ferrous metals, non-ferrous metals, wooden studs, live cables**

Max. detection depth: **120 mm**

Detection depth, steel, max.: **120 mm**

Detection depth, copper, max.: **80 mm**

Power supply: **1 x 9 V 6LR61**

Automatic deactivation facility, approx.: **5 minutes**

Scope of supply ... 000

1 x 9 V 6LR61 (block) battery	✓
Hand strap	✓
Protective bag	✓

Target Groups / Applications:

- 01 Users who performing drilling or fixing jobs in daily lives and need reliable information of type and location of objects.
- 02 Electricians, plumbers, drywall fitters, interior construction, kitchen installers who want to reduce the risk element of drilling into unknown areas and be provided information of what element they may be drilling into.
